Market Review 20.11.17

Nifty (10284) we said, 'technically we can see some more up move to around 10270-300 zones and the crucial support to watch would be 10175' the Nifty opened with a bang and profit booking came in in the later part of the trading session to close in our target zone…technically I maintain that Nifty is up as long as 10175 holds and upside to 10340 is also a possibility…

The crucial support for the Nifty is at 10175-10089 and the resistance is at 10340
