

## Market Cues

Indian markets are likely to open flat tracking subdued overseas market and SGX Nifty.

US markets remained lackluster on Friday after Federal Reserve Chairperson Janet Yellen signaled on Friday that the Fed will likely resume raising interest rates later this month to reflect a strengthening job market and inflation coming at central bank's target. European market closed on a mixed note ahead of the US Fed's chairman Yellen's comments.

Indian markets continued their upward rally last week. A better than expected GDP data helped in markets rallying further. However, we believe the Indian markets might take a pause before seeing further upside in the near term. Market participants will also keenly watch out for exit poll results due for this week and could react accordingly.

## News Analysis

### Nasscom sees FY18 industry growth at 8-10%

Software Industry body NASSCOM has said it expects the Indian IT sector to grow by 8-10% in FY18. However, it has said that a clear picture will emerge only over the next two three months. The industry body had given the projection to media in last year November and it believes between November 2016- and March 2017 nothing much has changed which can change the projections. Looking at the multiple challenges and headwinds from, during November, 2016 NASSCOM had revised down its FY17 revenue growth target to 8-10% from initial 10-12%. However, over the last few months the Visa issue has been one of the key point of discussion and the news of US halting premium H1B visa processing is likely to further increase the trouble for Indian IT companies. According to NASSCOM the suspension of premium H1-B visa processing will create some process delays for the companies, but is not a significant impediment.

### Alembic Pharmaceutical launches Desvenlafaxine in US

Breckenridge Pharmaceutical, Inc. and Alembic Pharmaceuticals Limited have launched their ANDA desvenlafaxine succinate extended-release tablets 50mg and 100mg, a generic version of Pristiq® by Pfizer Inc. Breckenridge and Alembic filed their Paragraph IV ANDA on the first-to-file date and expect to share 180-day exclusivity with other ANDA first filers (expected to be around 5-6). Alembic Pharmaceuticals Limited is the sponsor and manufacturer of the ANDA, which will be marketed exclusively by Breckenridge. The Paragraph IV litigation with respect to the ANDA has been settled on terms that are confidential. The settlement includes a license effective prior to the expirations of the patents involved in the litigation.

Desvenlafaxine is a prescription drug that is indicated for the treatment of major depressive disorder. Desvenlafaxine is in a class of medications called selective serotonin and norepinephrine reuptake inhibitors (SNRIs). Pristiq® generated sales of US\$883mn, based on December 2016 IMS Health sales data. The product will be available in 50mg and 100mg tablets. Thus given the competition we expect the company to gross around US\$25mn and US\$8mn, of net sales and profit respectively, during the 6-month exclusivity. **We upgrade the rating to accumulate with a revised price of ₹689.**
