

## Market Cues

Indian markets are likely to open flat tracking the SGX Nifty & global cues.

US markets closed off intraday highs Thursday as President Donald Trump hosted his Chinese counterpart Xi Jinping for their first official meeting, as investors sought clues to how the leaders of the world's economic powerhouses will tackle trade and geopolitical issues. The mood in the market, however, remained cautious as investors awaited nonfarm-payrolls data due on Friday. The S&P 500 index rose 0.2%, to close at 2,357 while Nasdaq Composite Index climbed 0.3%, to end at 5,879.

The UK markets edged down after Federal Reserve indicated to start reducing its buildup of government and mortgage-backed bonds that has been a pillar of support for equity markets worldwide. The FTSE 100 fell 0.4% to close at 7,303.

Benchmark indices pared losses to end the day on a flat note after the Reserve Bank of India decided to keep the repo rate unchanged at 6.25% in line with the market expectations. The S&P BSE Sensex settled the day at 29,927, down 47 points, while the broader Nifty50 ended at 9,262 down 3 points.

## News Analysis

### RBI in a pause mode....

As on expected line, the RBI dished out a HOLD on the repo rate at 6.25% though it raised reverse repo rate by 25bps to 6%. It has also bought down the MSF rate (Base rate) by 25bps to 6.50%. The reverse repo hike is aimed at draining out excess liquidity which had piled up in the banking system post the demonetisation saga. The raising of reverse repo should be constructed to be marginally positive for Banks as they can park the excess liquidity at their behest and earn the additional 0.25% interest from RBI. With this move, RBI has narrowed the policy rate corridor to 50bps with the sole intention of managing the excess liquidity glut. RBI has given its guidance towards the growth outlook for the economy and expects GVA to bounce back to 7.4% in FY18 from 6.7% in FY17.

RBI also permitted Banks to invest in REIT's and InvIT's and though further clarity is sought on the mechanism in which this shall be adopted, it can still be sentimentally positive for listed realty and infrastructure players. The other concerning point for RBI is the stickiness in core inflation and believes the shift to 'neutral' from 'accommodative' stance undertaken in the February policy was with the premise of inflation remaining at elevated levels with the added risk of a weaker monsoon outlook for the coming fiscal. RBI is of the belief that CPI inflation can hover around 4.5% in the first half of this fiscal and around 5% in the second half of the current financial year.

With this policy move, RBI in our opinion shall monitor further data-points on credit growth, Inflationary numbers, panning out of monsoons, Bad asset resolution for the banking industry, Federal reserve actions and general global macro economic trends before they take a move in either direction on the rate front.
