

## Market Cues

Indian markets are likely to open with a flat to positive bias tracking the SGX Nifty.

U.S. markets fell on Thursday after a key vote in the House regarding a Republican-led health care bill was delayed.

The European markets ended Thursdays session with gains. Investors were in a cautious mood ahead of a crucial vote on healthcare reform in the U.S. Congress. After a weak start, the markets inched into positive territory later in the morning and advanced further in the afternoon. The afternoon gains coincided with an upward move on Wall Street that brought the U.S. markets firmly into positive territory.

Indian markets rose notably on Thursday after falling heavily in the previous session. Positive global cues, a marginally strong rupee and hopes that the government will implement the GST tentatively from July supported underlying sentiment as investors awaited a key vote on healthcare reform in the United States.

### IDFC Bank to set up 30,000 micro ATMs and 75,000 Aadhaar Pay merchant points in two years

IDFC Bank plans to build a network of more than one lakh points-of-presence in the next two years to enable people in the farthest corners of the country to transact digitally, a move that comes amid the government's digitization drive.

The Mumbai-based private lender plans to set up 30,000 micro ATMs and 75,000 Aadhaar Pay merchant points as part of its plan. While the micro ATMs function as a bank-in-a-box, most of the Aadhaar Pay merchants will be converted into business correspondents and will deliver basic financial services.

The plan envisages coverage of 250,000 villages across 300 districts to serve nearly one crore customers, according to Lall. The bank currently has about 7,000 points-of-presence, including branches, ATMs, micro ATMs, e-PDS outlets, Aadhaar Pay merchant points and the network of Grama Vidiyal Microfinance, the company it had acquired last year.

The 30,000 micro ATMs will be installed in rural and unbanked locations and will be placed at fair price shops and panchayat offices, among others. The bank currently operates in 19 states spanning 20 cities, 60 districts and 40,000 villages.

In the pilot phase spanning three months, more than 1,500 merchants across 16 states have enabled digital transactions for customers of all banks, using IDFC Aadhaar Pay on their smartphones. The bank now plans to expand this network to 25 states. The bank also plans to convert most of these agents into a full-fledged banking service point armed with a micro ATM.

Aadhaar Pay, which addresses the needs of the phone-less, enables users to transact digitally for small value payments free of cost.

IDFC Bank is the only bank in the country at present that allows smartphone users or customers using its micro ATM to open a savings account and a fixed deposit account using a completely digital process that requires no paperwork and takes under four minutes.
