Market Review 1.8.17

Nifty (10077) we said 'technically the trend is still intact up and some more sideways action is still not ruled out as long as 9920 holds' the Nifty opened with a bull gap and traded up to close in the green...technically the trend is still intact up and the next logical technical target in the days to come is 10128-10260 as long as 9920 holds...

The crucial support for the Nifty is at 9940-9920 and the resistance is at 10128-10260-10536
