## Market Review 2.6.17

**Nifty (9616)** we said 'technically I would maintain that that trend is still intact up as long as 9580 holds' the Nifty opened with a bear gap and traded volatile and taking care to stay above the crucial support of 9580 to close flat for the day....technically the trend is still intact up and I would maintain that 9580-9540 is a strong support zone to work....

The crucial support for the Nifty is at 9580-9540 and the resistance is at 9660-9713
