Market Review 2.8.17

Nifty (10115) we said 'technically the trend is still intact up and the next logical technical target in the days to come is 10128-10260 as long as 9920 holds' the Nifty traded volatile and in a tight range and has closed in the green taking care to see high of the day on our resistance like a dot...technically the trend is still intact up as long as 10000 holds...

The crucial support for the Nifty is at 10000 and the resistance is at 10149-10260-10536
