Market Review 7.8.17

Nifty (10066) we said, 'technically I would maintain that the larger trend is still intact up however some slide is not rule out and there exists a strong support at 9968' the Nifty saw some slide but recovered before the 9968 to close in the green...technically the trend is still intact up and the next logical technical target is 10149 as long as 9968 holds...

The crucial support for the Nifty is at 10000-9968 and the resistance is at 10149-10248-10536
