Market Review 9.8.17

Nifty (9979) we said, technically I maintain that the trend is still intact up as long as 9968 holds...analysis remains the same' the Nifty traded lower and the momentum seems to have shifted with selling pressure in the upper regions but somehow has managed to close above the crucial 9968 mark... technically now if it slides then a level of 921-9897 is also not ruled out.... the first sign of strength would be a close above the 10000 mark...

The crucial support for the Nifty is at 10000-9968 and the resistance is at 10149-10248-10536....
