Market Review 9.10.17

Nifty (9980) we said, technically the target is achieved and any move above 9946 would propel the Nifty to 10041-10080 zones but looks like the Nifty is into a pause mode and so a dip is acceptable as long as 9850 holds' the Nifty opened with a bull gap trapping the shorts to cross our 9946 mark and closed in the green...technically now the next logical technical target is 10041-10080 zones... as long as 9900 holds...

The crucial support for the Nifty is at 9900 and the resistance is at 9946-10041-10080
