Market Review 11.5.17

Nifty (9407) we said '9375 & 9414 are still a reference points to work with the Nifty traded trapped and closed flat...analysis remains the same...its looking for a big move either way' the Nifty's big move came and broke out on the upside and halted on our resistance at 9414 like a dot...technically now if it continues up then the next logical target would be 9633...crucial support to watch would be 9330

The crucial support for the Nifty is at 9330 and the resistance is at 9414-9633
