Market Review 16.10.17

Nifty (10167) we said, technically now 10000 has now become a crucial support to work with...next logical technical target would be 10150-200 zones' the Nifty opened with a bull gap continued its journey up to register a new high and close in the green...technically the trend is still intact up, and the next logical technical target is 10315-10537 as long as 10000 holds...

The crucial support for the Nifty is at 10000 and the resistance is at 10181-10200-10315-10537
