## Market Review 18.10.17

**Nifty (10234)** we said, technically the trend is still intact up, and the next logical technical target is 10315-10537 as long as 10000 holds' the Nifty traded flat and has closed flat ...analysis still remains the same...

The crucial support for the Nifty is at 10150 and the resistance is at 10315-10537
