Market Review 20.9.17

Nifty (10148) we said, technically I would maintain that now 10115 is a strong support and the next logical technical target is 10211' the Nifty opened with a bull gap but traded lower in the red to close flat for the day...technically the analysis remains the same...

The crucial support for the Nifty is at 10115 and the resistance is at 10211
