## Market Review 25.10.17

**Nifty (10208)** we said, technically the level of 10000 has held and as long as that holds...upside still possible' the Nifty traded opened in the green and stayed up to close in the green... technically upside still possible as long as 10123 holds...

The crucial support for the Nifty is at 10123 and the resistance is at 10250-10306
