Market Review 29.8.17

Nifty (9913) we said, technically now 9785 is a crucial support and 9911 is a possibility' the Nifty opened in the green and traded in the green all day to close positive for the day right on our resistance like a dot...technically now 9860 is a crucial support to deal with and the logical target is 9965-10005 zones...

The crucial support for the Nifty is at 9860 and the resistance is at 9965
