## Market Review 31.8.17

**Nifty (9884)** we said, 'stiff resistance exists at 9912' the Nifty opened in the green and stayed up due to short squeeze seeing the high at our resistance like a dot and closed in the green... technically we can still see some more sideways movement & volatility and the resistance beyond 9912 would be 9965 and a slide down too is possible

The crucial support for the Nifty is at 9780-9740 and the resistance is at 9965
