#### NIFTY FUT : CONTINUE PROFIT BOOKING TOWARDS 9040-8990

Nifty futures closed 0.13% higher at 9135. Index has given breakout form an up sloping parallel channel which is a bearish signal for short term trend. Earlier Index has formed Tri Star Doji candlestick pattern which suggests the recent peak to act as important resistance for short term. RSI has earlier formed negative divergence and is now forming lower highs and lower lows which is a bearish signal and compliments the bearish view of price. Going ahead till index maintains below 9180, it is expected to continue its profit booking towards 9040-8990 while resistance past 9180 comes at 9230.

Bank Nifty futures closed 0.35% lower at 21617. Index formed shooting star a bearish reversal candlestick pattern which needs confirmation in the form of a lower close on the following day. Index is placed around the upper trend line of the up sloping channel, for index to continue its up move it needs to surpass the upper trend line. Going ahead index has immediate resistance at 21800, for index to continue its up move it needs to sustain above this level, a failure to do so can call for a halt in the ongoing up move and will call for profit booking initially towards 21500-21200.
