## Outlook for the day

Indian Equity markets ended the session on a firm note on account of short covering ahead of outcome of General Election results. Volatility cooled down slightly but it is still near 4-year high. All the sectoral indices ended positive except NIFTY PHARMA with NIFTY MEDIA being the top gainer. NIFTY METAL and NIFTY REALTY were the other major gainers ending higher by more than a percent. On the technical front, Nifty for the past few days had been extremely volatile indicating consolidation amid the range of 11100-11300 with oversold placement of the oscillator indicates Nifty might be in a base building process. Support emanates from 61.8% retracement of last up move (10585- 11856) at 11070 coinciding with the 200dma and the upward sloping trendline adjoining October 2018 and February 2019 lows (10005-10585). However follow through strength above 11300-11350 would be required to be termed as reversal. During the day Nifty has support around 11190-11220 zone, below which the next levels of supports can be seen around 10090-11000. While on the upside the resistance is pegged around 11300-113200 scaling which it next resistance is seen around 11360-11380. On the option front maximum Put OI is at 11000 followed by 11500 strike while maximum Call OI is at 12000 followed by 12500 strike
