Outlook for the day

Indian Equity markets witnessed heavy selling across the board after Finance Minister Nirmala Sitharaman dashed hope of a tweak in FPI surcharge. Continued asset quality concerns in Q1 also spooked markets and continued FII selling also weighed heavily on the market. All the sectoral indices ended negative with NIFTY AUTO being the top loser cracking more than 3%. NIFTY MEDIA, NIFTY PHARMA and NIFTY BANK plunged more than 2%. On the technical front, Nifty formed bearish candle on daily as well as weekly scale, indicating bears are having the upper-hand on the Street, which could drag the index below 11,300 level. Nifty has also broken its major rising trend line by connecting swing lows of 10585, 11108 and 11550 levels which further reinstates that Nifty is heading towards 11,300 level. Hence it seems that there would be continuance of corrective bias and might hold till 11300 as it happens to be the 80% retracement of last major up move (11108–12103). During the day support for Nifty is seen around 11390 levels followed by 11310 levels while resistance is placed around 11470 levels breaching which 11530 can be seen as the next levels of resistance. On the option front maximum Put OI is at 11300 followed by 11400 strike while maximum Call OI is at 11600 followed by 11700 strike
