Indian Equity Market Performance:

Indian equity markets fell sharply on Tuesday, extending losses for a third straight session due to heightened geopolitical and trade tensions. After the U.S. rejected India's WTO notice on retaliatory tariffs against steep metal duties, India is considering suspending concessions on American imports.

Sectoral Front Performance:

On the sectoral front, realty index rose 1 percent, while bank, capital goods, consumer durables, IT, oil & gas, power, private bank, PSU bank indices down 0.5-1 percent.

Technical Analysis:

The Nifty 50 index formed a long bearish candle on the daily chart on Tuesday, nearly engulfing the prior session's Bullish Hammer-like formation – a clear sign of weakening sentiment. The index slipped below the midline of the Bollinger Bands as well as the 20-day EMA, reflecting mounting selling pressure. Technical indicators echoed the bearish tone: the MACD maintained its negative crossover with a softening histogram, while the RSI also showed a downward crossover. The ADX, a measure of trend strength, continued its slide below the 20 mark for consecutive sessions, underscoring the absence of a dominant trend. With the index hovering near the lower end of its trading range, the 24,380 level emerges as a critical support. A decisive breach below this could invite further downside. On the flip side, immediate resistance is seen at 24,700, followed by a higher hurdle at 24,900.

Option Activity:

On the option front, maximum Put OI is at 24600 followed by 24500 strike, while maximum Call OI is at 25000 followed by 25500 strike. Call writing was seen at 24600 strike, followed by 250500 strike while Put writing was seen at 24300 strike, followed by 24550 strike.

ASBL prepares and distributes research reports solely in its capacity as a Research Analyst under SEBI (Research Analyst) Regulations 2014. The disclosures and disclaimer provided herein are integral components of all research reports being disseminated.

- 1) ASBL, its associates, and its Research Analysts (including their relatives) may hold a financial interest in the subject company(ies). This financial interest extends beyond merely having an open stock market position and may include acting as an advisor to, or having a loan transaction with, the subject company(ies), in addition to being registered as clients.
- 2) ASBL and its Research Analysts (including their relatives) do not possess any actual or beneficial ownership of 1% or more of securities in the subject company(ies) at the conclusion of the month immediately preceding the publication date of the source research report or the date of the relevant public appearance. Nevertheless, it is noted that associates of ASBL may hold actual or beneficial ownership of 1% or more of securities in the subject company(ies).
- 3) ASBL and its Research Analysts (including their relatives) do not possess any other material conflict of interest at the time of publishing the source research report or the date of the relevant public appearance. It is important to note, however, that associates of ASBL may have an actual or potential conflict of interest, distinct from ownership considerations.
- 4) ASBL or its associates may have received compensation for investment banking, merchant banking, and brokerage services, from the subject companies within the preceding 12 months. However, it is important to clarify that neither ASBL, its associates, nor its Research Analysts (who are part of the Research Desk) have received any compensation or other benefits from the subject companies or third parties in relation to the specific research report or research recommendation. Furthermore, Research Analysts have not received any compensation from the companies mentioned in the research report or recommendation over the past twelve months.
- 5) The subject companies featured in the research report or recommendation may be a current client of ASBL or may have been a client within the twelve months preceding the date of the relevant public appearance, particularly for investment banking, merchant banking, or brokerage services.
- 6) ASBL or its Research Analysts have not been involved in managing or co-managing public offerings of securities for the subject company(ies) within the past twelve months. However, it is worth noting that associates of ASBL may have managed or co-managed public offerings of securities for the subject company(ies) in the past twelve months.
- 7) Research Analysts have not held positions as officers, directors, or employees of the companies mentioned in the report or recommendation.
- 8) Neither ASBL nor its Research Analysts have been engaged in market making activity for the companies mentioned in the report / recommendation.

DISCLAIMER

The research recommendations and information provided herein are intended solely for the personal use of the authorized recipient and should not be construed as an offer document or as investment, legal, or taxation advice, nor should it be considered a solicitation of any action based upon it. This report is strictly not for public distribution or use by any individual or entity in jurisdictions where such distribution, publication, availability, or utilization would contravene the law, regulation, or be subject to registration or licensing requirements.
